

COVID PROTOCOL UPDATE – MARCH 18, 2022

In light of the recent announcement regarding further relaxing of restrictions that are to take effect March 21, 2022, we would just like to let you know what action the studio will be taking in this regard.

- 1. With reference to wearing of Masks – the studio will still require masks be worn in the lobby and waiting rooms at this time. These are high traffic areas during class switch over and we feel that in the interest of everyone's safety this will continue to be enforced until further notice. The dancers once in the class will be permitted to remove their masks, provided they feel comfortable with that or if preferred can continue to wear. We will reassess this in the coming weeks as we see how the after affects of March break roll out.**
- 2. While you are no longer required to complete an active screening for the studio, we request you continue to do a passive screening; meaning you self-monitor and do not come to the studio if you or your child are unwell or have any symptoms.**
- 3. Capacity limits have been removed however, it is still a requirement for indoor gatherings and activities to maintain social distancing.**

We thank you all for your cooperation in this matter. Let's continue to keep everyone safe while we work our way back to whatever the new normal is going to be.
